

## BACONTON COMMUNITY CHARTER SCHOOL

Baconton, Georgia

This project was an expansion for the Baconton Community Charter School. The project included the construction of 8 new classroom buildings for a rural charter school in South Georgia.

The 8 buildings consisted of 26 traditional classrooms, 4 science classroom/laboratories, 2 art classrooms, and a new cafeteria including a full kitchen.

Also included in construction was an administrative suite and central restroom facilities.

This project involved the opportunity to work with local school boosters to enhance a limited budget into the best school possible for this rural community.
